

Polyteck Building Services Ltd Environmental Policy

Polyteck Building Services is a dynamic and forward thinking organisation operating as a 'one stop shop', providing all building, mechanical and electrical services solutions. We offer a comprehensive range of services for building and facilities maintenance solutions in Central London, covering both commercial and residential property at the highest level.

As a leading Construction and Facilities Maintenance company Polyteck is committed to maintaining highest standards of compliance with environmental regulations, both working at client's premises and in our offices.

We have instigated a Quality Management System that pays the highest regard to environmental issues and consistent with this, we currently work with accredited certification under the ISO 14001:2004 Environmental Standard.

To this end we undertake to:

- Liaise regularly with the environmental agencies, regulatory bodies, and industry associations to ensure we are familiar with current legal and other requirements/ environmental legislation and best practice.
- Continuously review and monitor our operations and procedures to ensure that we prevent pollution.
- Educate and provide training in environmental issues to all our employees and manage their performance in line with company-approved practices.
- Set environmental targets and monitor our performance for continual improvement in all aspects of our operations.

In particular in our site operations we:

- Calculate material requirements as accurately as possible to minimise waste.
- Re-cycle surplus materials where practical.
- Ensure waste is disposed of in accord with environmentally approved regulations and best practice.
- Maximise efficient use of fuel, energy, and water.
- Minimise use of solvents, lead-based paints, non-bio degradable and any other potentially harmful materials.
- Aim to use timber from sustainable resources.
- Minimise noise and disruption to clients and neighbouring parties.
- Select and manage all our sub-contractors to ensure similar levels of performance and compliance.

This policy is reviewed and updated at regular intervals

Signed

Costas Polycarpou
Managing Director
